HAND SOWN QUILT

A beautiful garden is a work of heart, but no green thumb is required for this one! Peek into the garden gateways of our Hand Sown Quilt and you'll spot all sorts of whimsical scenes. Greenery and lush blossoms will greet you in each block, and the hand stitched look to this quilt will make it an heirloom that can be gifted to a friend or treasured in your own home for years to come.

With each block available in 4 sizes, you can choose to create this lovely quilt as large or small as you please, or even incorporate a few of these florally framed scenes into another quilting project. As Audrey Hepburn once said, "To plant a garden is to believe in tomorrow," so get ready to reap what you sew and get all the compliments with Hand Sown Quilt!

CHOOSING COLORS FOR YOUR QUILT

Since these designs mimic a hand stitched look, try letting the thread create the beauty of this collection rather than busy fabrics or appliqué. We chose to keep our designs tonal with pops of lush garden hues.

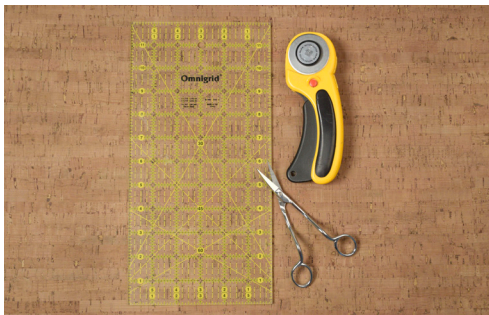

FABRICS

We did not want the fabrics to distract from the beautiful bean stitch details that make up these quilt scenes, so we chose to stick with neutral beige and cream fabrics.

THREADS

A muted palette keeps this quilt sophisticated while still showcasing the beautiful florals digitized into each design. Try 3 or 4 brighter threads for the blooms or bugs, and mix in some softer, more tonal shades.

NOTIONS

Since this is a quilting collection, you will need the standard notions to include a rotary cutter, ruler, and good pair of scissors.

HAND-STITCHED HORTICULTURE

Growing a garden can take a lot of time and patience, but have no fear. We've made this garden easy to grow...in your machine of course! These hand-stitched garden scenes will give you a peek into the tranquil scenery within a blooming garden, no need to water or weed!

Beautifully digitized ivy and blooms will sprawl around each blanket stitched center scene,

creating the perfect frame for any floral aficionado. Mimicking the look of hand embroidery, each block has been specially digitized to incorporate a variety of stitch lengths, densities, and fill types in these florals, giving each one a more authentic, handmade look.

With simple background fabrics and rich thread colors for the flowers, Hand Sown will be a timeless quilt to flaunt for years to come.

FLORAL FRAMES

Once stitched together, the curling vines and rosebuds surrounding each design will tie this quilting collection together to create a tranquil garden getaway.

DESIGN GUIDE

AA

Designs with the letter “AA” at the end are the large designs for a hoop that can embroider at least 9” x 9”.

A

Designs with the letter “A” at the end are the large designs for a hoop that can embroider at least 8” x 8”.

B

Designs with the letter “B” at the end are the large designs for a hoop that can embroider at least 7” x 7”.

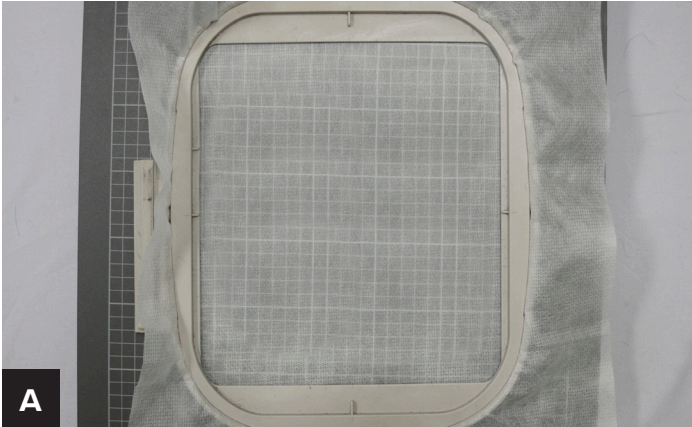

C

Designs with the letter “C” at the end are the large designs for a hoop that can embroider at least 6” x 6”.

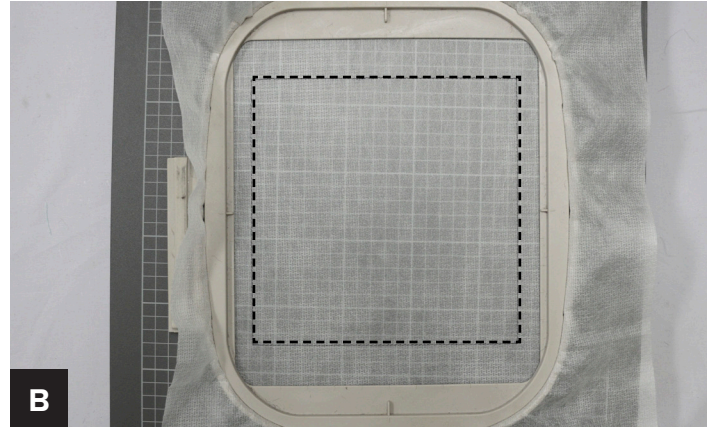

Step-by-Step

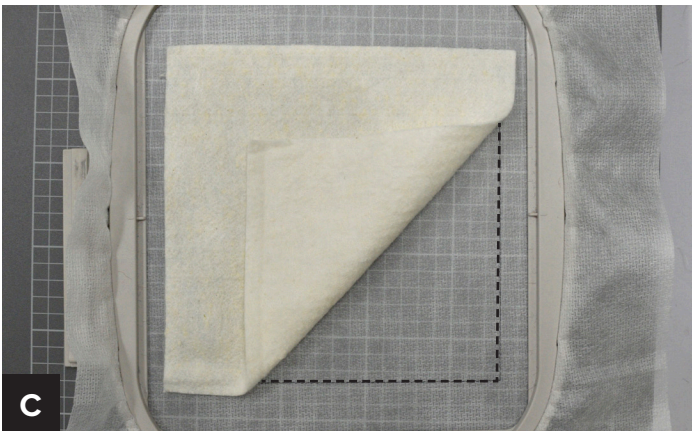

Instructions

A To begin, hoop a piece of No Show mesh stabilizer and load the design you want to stitch.

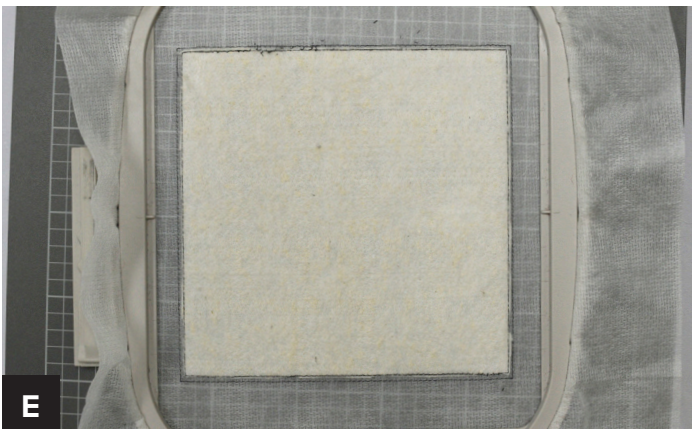

B Run the first step of the design, which will be the squaring stitch for the batting.

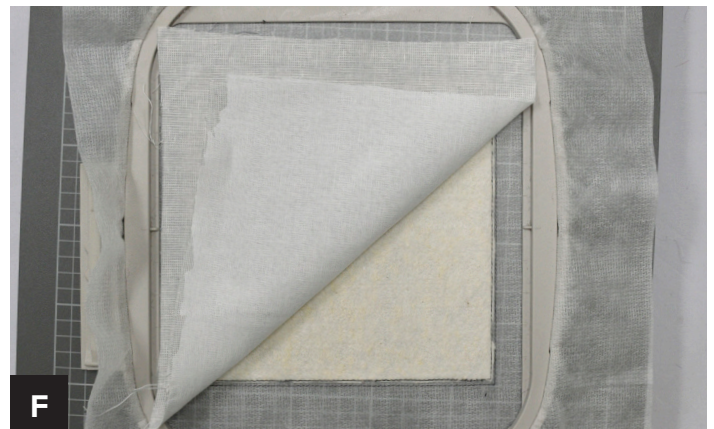

C Place a piece of batting over the squaring stitch, being sure to cover the stitches on all sides.

D The next machine step will tack the batting in place. Use scissors to trim away any excess batting.

E Once trimmed, your block will look like this.

F Now, place your base fabric, right side up, to cover the batting. Be sure to leave enough fabric for a 1/2" seam allowance on all sides.

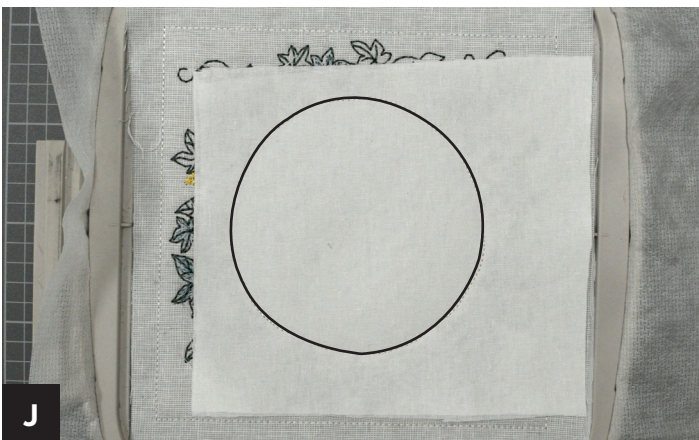

G Run the tacking stitch for the base fabric.

H Continue to follow the numbered steps for the design's embroidery details, stopping when you reach the placement stitch for the center appliqué.

I Lay a piece of appliqué fabric right side up, being sure to cover the placement stitches on all sides.

J Run the tacking stitch for the center appliqué.
TIP: Since this appliqué will be tacked down with a decorative blanket stitch, choose a thread that matches your fabric choice.

K Once tacked in place, use a pair of scissors to trim away the excess fabric. *TIP: Remember that this appliqué will have a blanket stitch, so trim close to the tacking stitch.*

L Continue to follow the remaining numbered steps for your design until the embroidery has finished.

M You can now remove the design from the hoop. Use a rotary cutter and ruler to trim your new block down to a ½" seam allowance.

N

Garden Getaway

Your Hand Sown Quilt block is now complete!

Swirling florals, vines and ivy evoke the organic nature of this collection while other elements maintain the hand stitched look in a fraction of the time.
