

Anita Goodesign™

I love to design elegant Christmas designs, the designs in the Victorian Christmas collection are no exception. There are 20 different jumbo designs included in this collection and they all have an enormous amount of detail. Our artists went all out when drawing these designs and each one is a piece of artwork in itself. There are beautiful scenes adorned by flowing holly leaves, many of designs even contain heartwarming sayings. You will be sure to cherish these designs for years to come. Each of the jumbo designs comes in multiple sizes. There are also 19 different edited designs in smaller sizes that you can add to any Christmas Project.

What better way to use these designs than on a photo album cover. We all have Christmas photos that we want to save so we created a beautiful album cover. You can easily recreate this project at home using our pattern and step by step instructions.

Victorian Christmas

Victorian Christmas

These designs will look beautiful on whatever you stitch them on. For our project we used one of the large designs on a photo album. We simply created a pattern for the album cover. *(You will need to create your own pattern since all photo album covers are different. You can easily adapt an existing book cover pattern for this project.)* We then stitched our design centered on the front cover and when it was finished we added decorative ribbons around it for added embellishment. The end result is a beautiful photo album that will be cherished for years to come.

Note
These designs are very stitch intensive so we recommend using a cutaway stabilizer and hooping the designs as tight as possible.
