Catalog

The Anita Goodesign catalog includes photos of all of our collections along with photographs of hundreds of projects. We hope all of the projects will inspire you.

Color guide

Be sure to read our new guide to choosing colors. This is a 29 page document that details how we choose thread colors and it also includes tutorials on how to change colors in your software! The color guide is located in the tutorial folder.

Re-sizing program

If you ever had trouble re-sizing designs you won't any more. We include a free re-sizing program that will allow you to adjust the size of our designs. The folder contains the program itself as well as the tutorial. We suggest reading the tutorial before installing the program.

Designs

All of the designs from the collection are in this folder. Once you open the designs folder you will see folders for all of the different machine types.

Tutorials

The tutorials folder is jam packed with information. Each collection has a specific tutorial that demonstrates all of the techniques and projects that go with it. There is, of course, a list of all the thread colors we used in the design. Our tutorials are unique in the fact that they consist of mostly photographs to guide you through the project step-by-step. On some collections we also give you additional information such as scans of the fabric we used, quilt patterns, home decor patterns and much more! There is also our brand new color guide that will explain exactly how we choose colors for our designs and projects. This is a must read. While in the folder be sure to explore the original home decor tutorial which will show you how to create perfect towels, applique and more.

Check us out on Our Websites

This is just a small sampling of what we offer. To view all of the designs, new releases, dozens of project ideas, a sample gallery with hundreds of photos, Diamond Club, Tech support and much, much more go to our websites:

Anita Goodesign Tutorials

At Anita Goodesign our goal is to inspire you with every single collection that we produce. Everything we do includes instructions to create a beautiful project. But what good would those instructions be if they were not easy to understand? We pride ourselves on our tutorials. Each tutorial has step by step instructions with photographs that illustrate how to embroider each technique and project. On many of the collections we also include scans of the fabrics we've used as well as patterns for the project. If you haven't fully explored one of our CD-ROM's you should do so now. All of our tutorials are located in the tutorials folder on your CD.

Each of the 20 blocks for this project are created in a unique fashion. Creating each crazy quilt block is simple, you will simply pick up your fabric and organize each piece to match the design. The individual blocks are created with the following instructions:

How the block instruction

Each of the 20 blocks for this project are created in a unique fashion. Creating each crazy quilt block is simple, you will simply pick up your fabric and organize each piece to match the design. The individual blocks are created with the following instructions:

Block 1 - Use White

Block 7 - Use white as your base fabric

Design Name: CQPU1A
Stitches: 3374
Size: 5.8" high x 5.8" wide

Design Name: CQPU8
Stitches: 5479
Size: 4.8" high x 4.8" wide

Design Name: CQPU1A
Stitches: 3374
Size: 5.8" high x 5.8" wide

Design Name: CQPU8
Stitches: 5479
Size: 4.8" high x 4.8" wide

Design Name: CQPU7A
Stitches: 3374
Size: 5.8" high x 5.8" wide

Design Name: CQPU7B
Stitches: 3375
Size: 4.8" high x 4.8" wide

Tip! This project is essentially a quilt. If you need to achieve a mistake or an error, refer to the tutorial folder of the CD-ROM.

Anita Goodesign Butterfly Lace Basket

Thread List

- 6000 - 100 yds
- 6001 - 100 yds
- 6002 - 100 yds
- 6003 - 100 yds
- 6004 - 100 yds
- 6005 - 100 yds
- 6006 - 100 yds
- 6007 - 100 yds
- 6008 - 100 yds
- 6009 - 100 yds
- 6010 - 100 yds

Step 1

This is what the basket will look like so far.

Step 10

Once the handles are made we can attach it to the basket. The handles fit in the grooves of the base. Use a joining stitch to fit it into place. Do this on the other side.

Tips for

- Use the joining stitch to attach the sides.
- Use the same technique when you attach it to the base because you want have enough

Thread List
