GOODESIGN

CATALOG

ANITA GOODESIGN

ABOUT US:

Anita Goodesign has one simple mission: To bring fun and creativity back to home embroidery. We design and release at least six new collections a month that are all extremely unique, and they can be purchased through your local embroidery store. Each design collection is built upon a theme and created by one of our three talented artists and digitizer, giving it consistency and quality. The themes can range from Christmas carols to the latest trends, and all can be used in different projects or home décor. Steve Wilson, owner and master digitizer has personally digitized over 100,000 designs and has over 15 years of experience in the embroidery industry. The CD-ROM's contain a wealth of information consisting of designs in multiple formats, project tutorials, technique tutorials and a free re-sizing program. The individual designs in each collection are sized from 3" x 3" to as large as 8" x 12" including quilt blocks and free standing embroidery designs. Each collection uses as few thread colors as possible and is digitized for use with home and commercial embroidery machines. Anita Goodesign employs over 40 full time workers in our Charlotte NC facility. Everything from art creation, digitizing, manufacturing, shipping, graphics and video production are completed under one roof. Because of this, Anita Goodesign is a true American manufacturer proud to bring you a product designed and created in the United States.

ABOUT THE OWNER:

Steve Wilson, is the president and owner of Anita Goodesign, Artbox Digitizing Studio, and the co-owner of Art-Sew-Perfect stock design company. Steve has won over 20 digitizing awards, written over 70 articles on digitizing and embroidery techniques and has produced 18 digitizing "How-To" videos. He has also digitized thousands of designs for the home textile and decorating industries and is bringing that experience and expertise to the Anita Goodesign Home Decor Collections.

Our designs are available at sewing machine stores everywhere!
