

Anita Goodesign™

Here is a very fun twist on the birdhouse theme. We took different types of house and other objects and turned them into birdhouses. There are lodges, barns, lighthouses, beach houses, pumpkins and even a teapot! There are 20 jumbo designs in all and each of the designs comes in two different sizes. 6"x10" and 5"x7". There are also 2 different headers and 8 individual birds to further embellish your projects. We created a door hanger with the Home Tweet Home designs. To embroider these designs simply choose your favorite fabric, match your thread colors to that fabric and start stitching. We chose a fat quarter bundle in fun spring colors.

Here is our door hanger we embroidered this in three hoopings. We stitched the birdhouse first followed by the header and added the birds at the end. The measurements are given on the photo. Don't forget to add your seam allowances to your fabric.
