[How To Do Machine Applique With Multiple Fabrics Video Tutorial](#)

We highly recommend [Embrilliance Essentials](#) for use with our BX format fonts as well as basic embroidery editing. All of our downloadable fonts will include a PDF with instructions for accessing the FREE version of [Embrilliance Express](#). We also have some great applique how to videos on our [YouTube Channel](#).

STITCH ORDER AND COLOR CHARTS

It is very important to stitch out these designs in the sewing order digitized. Often times the colors on your computer screen may be very funky. This is **NORMAL** and is because each format has its own color palette. Some formats are limited in their color selections and will switch on screen to a completely different color by default. This is the reason for the colorcharts that are provided with each design set. Please refer to the color sequence charts.

*** We get many emails asking what threads are used when digitizing. We have our color preference and you certainly don't have to follow it. You are encouraged to change the colors and use your creativity. Any colorcharts for design sets released after DBJJ096 that contain thread numbers will be for ROBISON ANTON SUPER BRIGHT POLYESTER OR FLORIANI POLYESTER.
